Other

Special operations

What are special operations?

Confirmation letter

This is a regulatory document that companies may need annually in the event of an auditor's intervention. Please note that Qonto will not charge you any additional fees for requesting a confirmation letter.

Management of irregularities

An irregularity occurs when the tax administration or a creditor through a legal authority demands reimbursement of an unpaid debt. As a payment institution, we are required to take the steps to reimburse your debt: this is what we call a seizure of bank accounts.

France and Italy only:

- In cases of a Third Party Debtor Notice (in France: Avis à Tiers Détenteur or ATD; in Italy: Pignoramento presso l'Agenzia delle Entrate), we will apply a fee of 10% of the amount demanded by the creditor, to a maximum of €100 including tax.
- In cases of Attribution Seizure (in France: Saisie d'Attribution; in Italy: Pignoramento presso terzi), we will apply a fixed fee of €100 including tax per seizure operation.

Germany and Spain only:

- We do not apply fees for the treatment of seizures.

Capital increase (France only)

- Capital increase of less than €1.2 million with a maximum of 15 shareholders and with the funds coming exclusively from French bank accounts: **€150 excl. VAT**.

- Capital increase of less than €1.2 million with a maximum of 15 shareholders and with the funds coming, in whole or in part, from bank accounts outside of France: **€250 excl. VAT**.

- Capital increase of between €1.2 million and €5 million, and/or with between 15 and 30 shareholders, and/or with the funds coming, in whole or in part, from bank accounts outside of France: **€300 excl. VAT**.

A capital increase enables the creation of new shares, which can then be purchased by one of the current shareholders or by a new shareholder.
